

## PAR FP7

The Fusion PAR FP7 is equipped with seven high power 30 Watt RGBW LEDs by Osram®.

This fixture is build for outdoor applications, is IP65 certified and therefor can be used throughout the whole year in all different environments.

The special designed bracket makes it easy to use the FP7 in hanging position but can also easily be transformed to use as a floorstand.

There are also 20°, 40°, 60° and 60°x10° diffusor plates available which can be fixed easliy at the front.

Althought the FP77 has the perfomance of a big fixture, it has a very compact housing and weights only 7,7kg.
